StaticWorx is a Vermont-based small business that produces American-made conductive/antistatic floors, ESD coatings, maintenance supplies, and static-control seating to protect electronics from damage due to electrostatic discharge. Applications include PSAPs, aerospace, clean rooms, access flooring, electronics manufacturing, laboratories, hospitals and healthcare facilities, and other private and government operations. We offer comprehensive technical assistance to ensure compliance with industry standards & specifications.

## CORE COMPETENCIES

- Site assessment
- Floors, new construction
- Renovation and alteration
- Maintenance & repair
- Installation oversight and Certification
- Seamless no-wax coatings for over existing hospital floors

## NAICS:

238330	325520
442210	326199
314110	326299

**DUNS:** 787556039

**CAGE:** 50ED6

## DIFFERENTIATORS

- Lifetime warranty on ESD protection
- All products meet industry standards for resistance and charge generation
  - ANSI/ESD S20.20, Motorola R56, ATIS 0600321-2015, FAA STD 019f, DOD 4145.26 M, Army Corps of Engineers (applies to USACD/NAVFAC/ AFCEC/NASA).
- Comprehensive training and technical assistance
- ESD carpet, vinyl, epoxy, and coatings 100% made in USA
- Widely published in industry journals; videos, podcasts, technical articles
- Collaborated with The Army Corp of Engineers on the UNIFIED FACILITIES GUIDE SPECIFICATIONS UFGS-09 65 36 (November 2010) for Static Control Resilient Flooring including Dissipative and Conductive Vinyl Tile USACE / NAVFAC / AFCEA / NASA

## SELECTED CLIENTS

- FAA Flight Control
- State & local PSAP/emergency dispatch
- Army Corps of Engineers
- Department of Homeland Security
- Hospitals in U.S. and Canada

- DOD
- Northrup Grumman Aerospace & Defense
- BAE Systems
- Sandia National Laboratories
- Fort Detrick Medical Command Center
