staticWorx®
GroundSafe® ESD Flooring

Quality Policy

StaticWorx will consistently provide products and services that meet or exceed the static control requirements and expectations of our customers. We will actively pursue ever improving quality testing that ensures all our products and services fully meet all pertinent industry standards - including the following: ANSI ESD S20.20-2021, Motorola R56, FAA 019F, ATIS 0600321-2020, DOD 4145.26, and Mil 1686. We have a verification program whereby we loan test equipment and provide instructions as needed so the customer is able to verify the ESD performance of the floor.

President: Dave Long

The President of StaticWorx has formulated the quality policy. The policy is explained and discussed to all new employees and has been reviewed with all current employees. All employees are expected to know what the quality policy means to them as it affects their job or position within the company.
