

GROUND BRIDGE GROUND SYSTEM

FAST, GLUELESS, ESD-SAFE INSTALLATIONS

Convert any hard surface floor into a static control floor.

Roll out GroundBridge strips, a lightweight material composed of conductive cellulose. Create a floating floor by joining the corners of ShadowFX carpet tiles using dimensionally-strong, self-adhering TacTiles®. Done. No glue. No trowels. No mess.

- No buckets of glue, no spots of adhesive.
- No conductive caulking.
- Easy, fast, clean installations.
- Easy, fast, clean tile removal and replacement.
- Virtually eliminates VOCs—no need to shuffle employees to different workareas or endure downtime during installations.
- Not dependent on the subfloor for ESD safety.
- Dimensional strength with individual tile flexibility.
- All of the options that accompany a floating floor.
